Hydro Impulse

HI-RF 11 mitek

The HI-RF 11 mitek boosts efficiency, thrust, and speed of the Mitek MO 15 compared to traditional propellers. It's an easy swap and enhances safety for both family and environment.

30% more thrust than thrust-oriented, 60% more than speed-oriented propellers for planing boats

Achieves higher speeds than thrust-oriented, same speed as speed-oriented propellers

Covered rotating parts reduce injury risk significantly

Guided water stream enhances manoeuvrability

More cost-efficient than higher-powered propeller systems with similar capabilities

Easy installation like a propeller, no modifications needed

Facts & Figures

Mitek MO 15 Outboard	10.5 kW Power	48 V Voltage	49 kg Weight	9.25 x 12" Propeller
Performance Comparison*		Speed	Thrust	
9.25 x 12"		17.5 kn	116 kg	
HI-RF 11 mitek		17.8 kn	187 kg	
Advantage		+2%	+61%	

*Tests were carried out with a 3.5 m long RIB

Price & Scope of Delivery

Price valid until 31.12.2024 € 2 500,00
Prices may change due to supply chain issues. ex VAT, ex works

Scope of Delivery: The HI-RF 11 mitek unit
including small parts, excludes the Mitek MO 15 outboard
